Metric Intelligence

Understanding the core calculation models used across the InfluencePulse platform.

CPE Industry Standard

Cost Per Engagement: Total campaign spend divided by total likes, comments, and shares.

ROI Industry Standard

Return on Investment: Net profit generated from influencer campaigns divided by total cost.

EMV Industry Standard

Earned Media Value: The estimated monetary value of the exposure gained through influencer content.

CTR Industry Standard

Click-Through Rate: The percentage of viewers who clicked on a tracked campaign link.
